

## Search for certificate

**If you need to find a certificate of a person who is our customer, we recommend using a catalogue service. Please give an e-mail address, common name or a serial number of the certificate of the person you are looking for - results are delivered within seconds. If your search results are negative, it means that the person is not a customer of CERTUM, or the person's certificate has expired and it can no longer be used.**

.....

While looking up certificates please remember to give the full phrases.  
Do not use key phrases such as: \*@certum.eu, "Company \*" or \*.eu.
